

SOLA 2024 (Shibuya Olympiad in Liberal Arts 2024)

1. Purpose

Through participating in the activities of SOLA 2024, students will deepen and share their learning with each other. By increasing their interest in social issues and creating various opportunities in which middle and high school students sharing the same philosophy can work together, we hope to nurture the next generation of global citizens who will be achieving the SDGs on a global scale.

We have devised a way in which middle and high school students are the organizers of each program, thus creating a platform by students and for students where strong messages can be sent to the world.
